◆ Trusted On-Site Calibration & Technical Services

Discover Tex At Site, Australia's reliable provider of on-site calibration, testing, and technical solutions. We specialize in mobile testing, high voltage equipment testing, safety inspections, and electrical repairs, delivering professional services nationwide, including remote locations.

◆ Mobile-First Services since 2001

Since our launch in April 2001, Tex At Site has focused on convenient, on-site testing and calibration for the electrical supply sector. Our mobile-first approach now supports industries including mining, electrical utilities, manufacturing, engineering, and transport.

◆ Fully Equipped Mobile Fleet

Our team of experienced technicians, supported by a fleet of fully equipped service vehicles and a light aircraft, delivers fast and reliable on-site solutions. We bring laboratory-grade testing and calibration directly to your site — even in the most remote locations — reducing downtime and ensuring full compliance.

◆ Nationwide Reliability & Technical Expertise

With a diverse and established client base, Tex At Site is committed to continuous improvement and delivering high-quality, tailored technical services that meet evolving industry standards. Trust us for professional mobile services anywhere in Australia.

Tex At Site is Australia's trusted leader in mobile calibration services. We deliver accurate, efficient, and reliable on-site testing and calibration, keeping your operations compliant and performing at their best.

Our fully equipped mobile laboratories and experienced technicians provide high-precision calibration, dimensional inspection, high-voltage testing, and equipment maintenance—all performed directly at your location. Whether you operate from a remote mine site, urban facility, or transport hub, we come to you.*

By offering on-site services, we help you minimise downtime, reduce costs, and avoid the hassle of sending instruments away. Our aviation-deployable teams allow us to reach even the most remote areas across Australia.

At Tex At Site, accuracy, efficiency, and cost effectiveness are our priorities. We are the go-to choice for dependable, nationwide on-site testing and calibration services.

*Certain limitations apply

HIGH VOLTAGE TESTING

ELECTRICAL TESTING UP TO 300 kV

Tex At Site is the leading mobile high voltage testing company in Australia, offering comprehensive testing solutions for critical electrical infrastructure. All testing is performed in compliance with AS standards, helping clients:

- Maintain regulatory compliance
- Minimise risk and operational downtime
- Ensure reliable high-voltage performance

Our services are designed to give you peace of mind, knowing your high-voltage assets are safe, efficient, and compliant.

- All live line equipment
- Hard and soft cover equipment
- HV proximity indicators
- Insulating gloves and sleeves
- Insulating mats and blankets
- Live line and operating sticks
- Portable earths
- Rescue kits
- Truck-mounted EWP vehicles and basket liners

SAFETY INSPECTIONS

ON-SITE INSPECTIONS FOR CRITICAL EQUIPMENT

Our experienced inspectors conduct on-site assessments of critical equipment and workplace systems. This ensures your operations meet safety rules and industry best practices, giving you confidence that your workforce and assets are protected.

- ◆ Elevating work platform linings / baskets
- ◆ Fall arrest equipment
- ◆ Height safety gear (harnesses, lanyards)
- ◆ Ladders
- ◆ PPE relevant to electrical safety (gloves, sleeves, etc.)
- ◆ Pole straps / pole belts
- ◆ Rescue systems / kits
- ◆ Strops, slings, chains, webbing (lifting gear)

ELECTRICAL REPAIRS

RESTORING ELECTRICAL CALIBRATION PRECISION

Tex At Site provides professional electrical repairs tailored to the needs of industrial, commercial, and civil construction sectors. Our experienced technicians deliver fast, reliable, and compliant repair solutions that minimise downtime and keep critical systems operating safely. With mobile service capabilities across Australia, we ensure your electrical equipment is repaired efficiently and to the highest industry standards.

COMPLIANCE & DATA MANAGEMENT

OVERSIGHT FOR REGULATORY COMPLIANCE

Tex At Site provides comprehensive compliance and data management services across Australia, assisting industries such as mining, construction, manufacturing, utilities, and transport in maintaining audit-ready records and adhering to Australian Standards. Our mobile solutions offer digital tagging, traceable reporting, and secure asset data management directly on-site, ensuring safety, compliance, and efficiency at your location.

SCIENTIFIC SERVICES

PRECISION CALIBRATION FOR SCIENTIFIC ACCURACY

Our mobile teams deliver on-site testing, analysis, and verification. This includes services such as oil sampling, environmental assessments, and materials testing. By doing so, we help ensure your operations meet compliance, safety, and performance requirements.

With a nationwide presence, we provide accurate, reliable, and audit-ready scientific results wherever your operations are located. As a result, you can trust that every project receives consistent, high-quality data to support informed decisions and maintain operational excellence.

WHY CHOOSE TEX AT SITE

KEEPING OPERATIONS EFFICIENT, COMPLIANT & SAFE

- **Dedicated Account Specialist** – a single point of contact who knows your equipment and business inside out
- **Smart Equipment Reminders** – automated alerts ensure your assets remain compliant and on schedule
- **Expert Technicians** – industry-leading experts delivering precision and reliability
- **Accredited & Trusted** – work with one of Australia's most recognised and reputable calibration providers
- **Custom Asset Management Portal** – easily manage and track all equipment via our client portal
- **Safety First** – services designed around compliance, safety, and best practice
- **On-Site Services** – supported by Australia's largest fleet of mobile calibration labs, delivering unmatched convenience and flexibility
- **Laboratory in Nunawading** – precision calibrations completed in a controlled environment with fast turnaround times
- **Professional & Reliable** – exceptional communication and consistent quality across every job

HIGH VOLTAGE GLOVES

Tex At Site is the exclusive distributor of Orion Gloves in Australia, delivering premium electrical PPE trusted by professionals across the country. Orion Gloves are engineered to provide reliable, high-quality hand protection for electricians, utility workers, and anyone working with live electrical lines.

Available in Class 0, Class 1, Class 2, Class 3, and Class 4, Orion Gloves offer protection ranging from low to extreme high voltage, ensuring the right glove for every electrical task. Made from durable natural rubber, they combine flexibility, dexterity, and comfort with strict compliance to international safety standards.

With Orion Gloves, professionals can work with confidence and peace of mind, knowing they are protected by industry-leading insulation and quality. As the sole Australian distributor, Tex At Site guarantees every glove is genuine, high-performance, and ready for demanding electrical environments.
